

Importação do certificado Filtro WEB SEED no Google Chrome no Windows

Passo 1: Selecione e copie (**CTRL + C**) o link abaixo, abra o navegador **Google Chrome**, cole (**CTRL + V**) o link na barra de endereços do navegador e aperte a tecla "Enter".

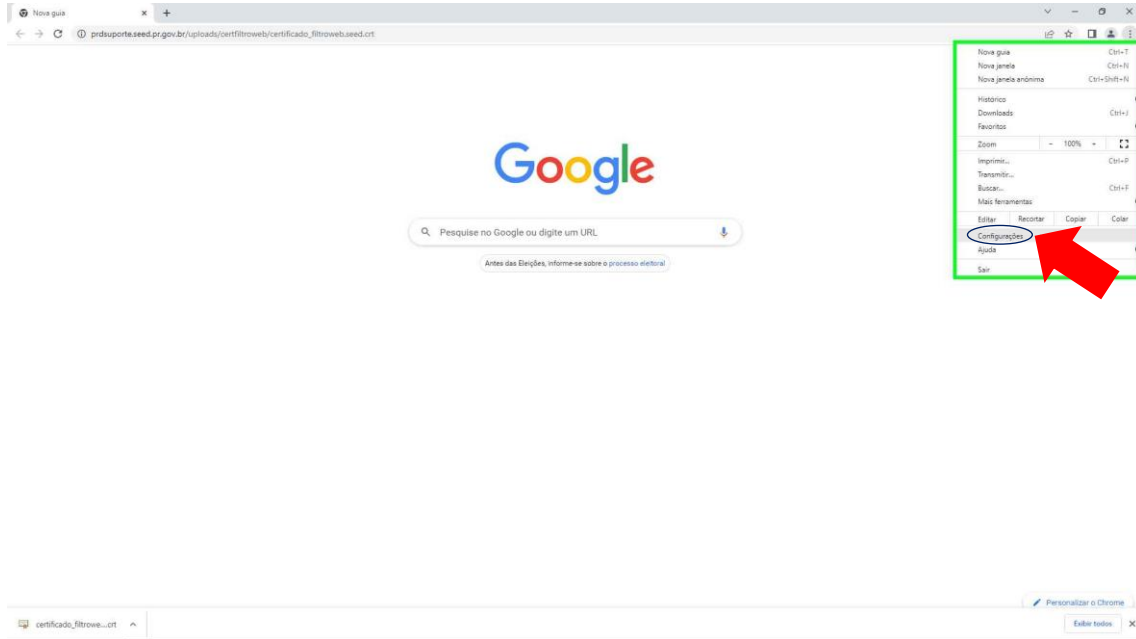

http://www.prdsuporte.seed.pr.gov.br/uploads/certifiltroweb/certificado_filtroweb.seed.crt

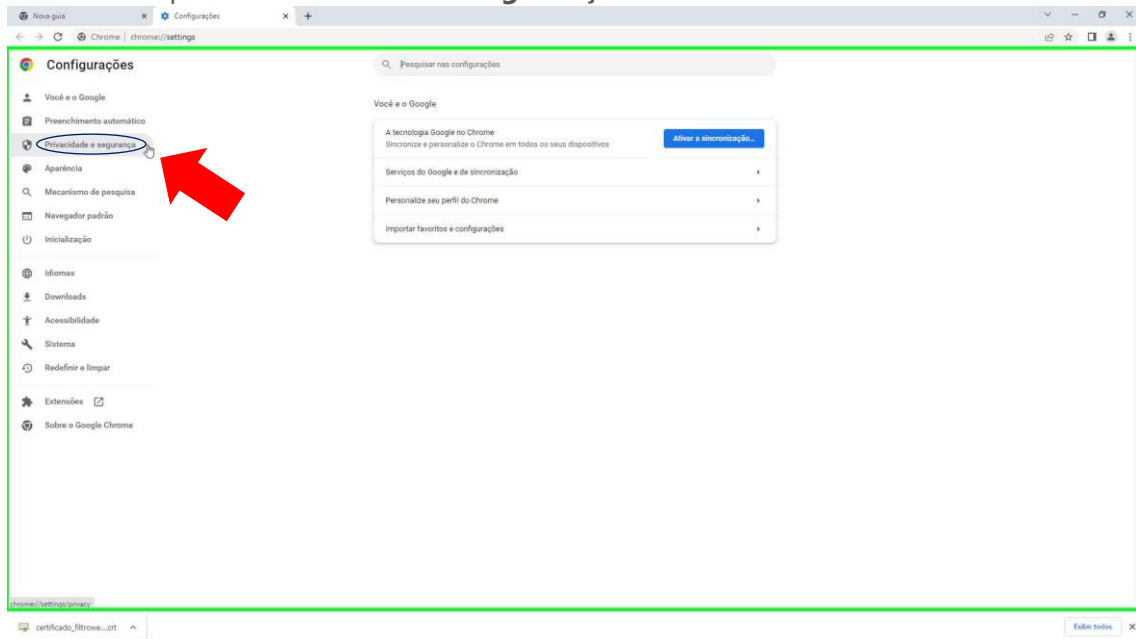

Passo 2: Clique no menu, conforme indicado abaixo.

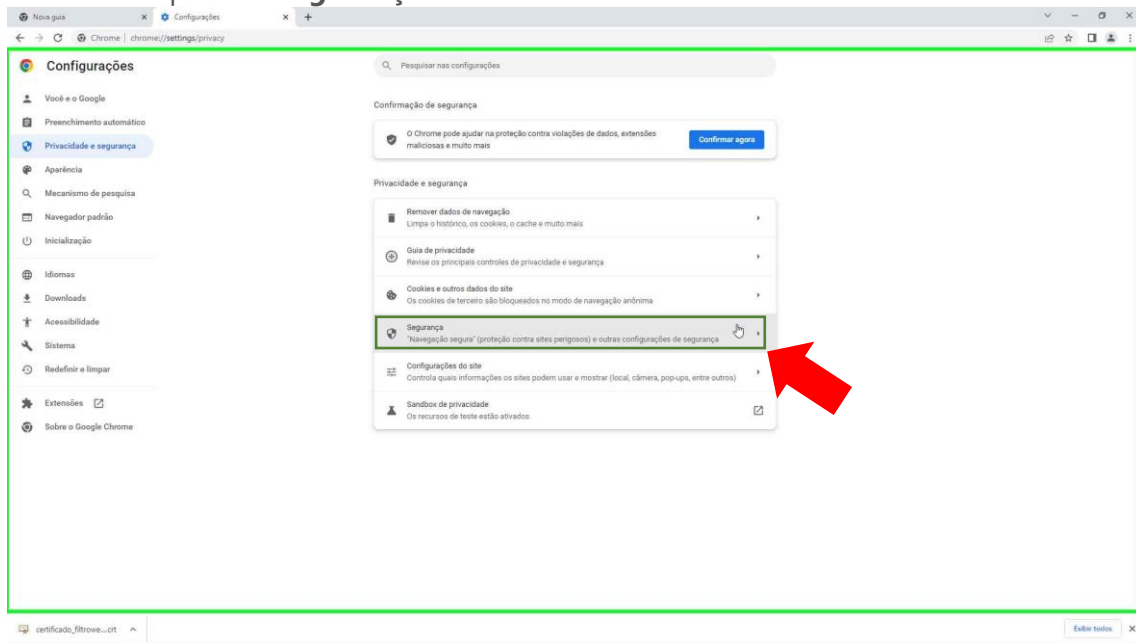

Passo 3: Clique em "Configurações".

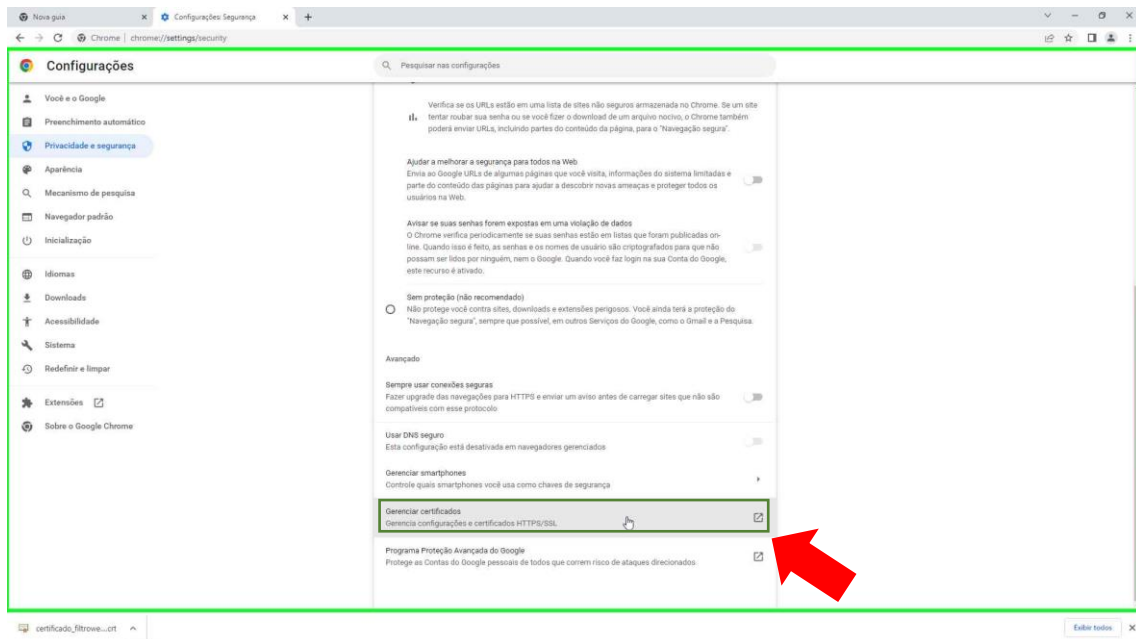

Passo 4: Clique em "Privacidade e Segurança".

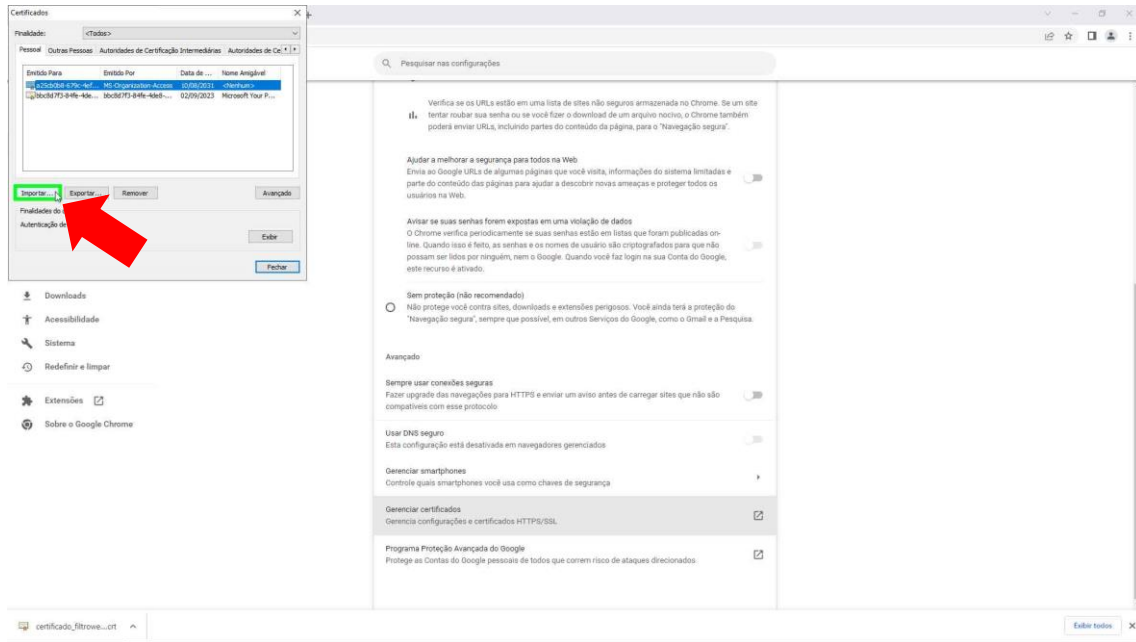

Passo 5: Clique em "Segurança".

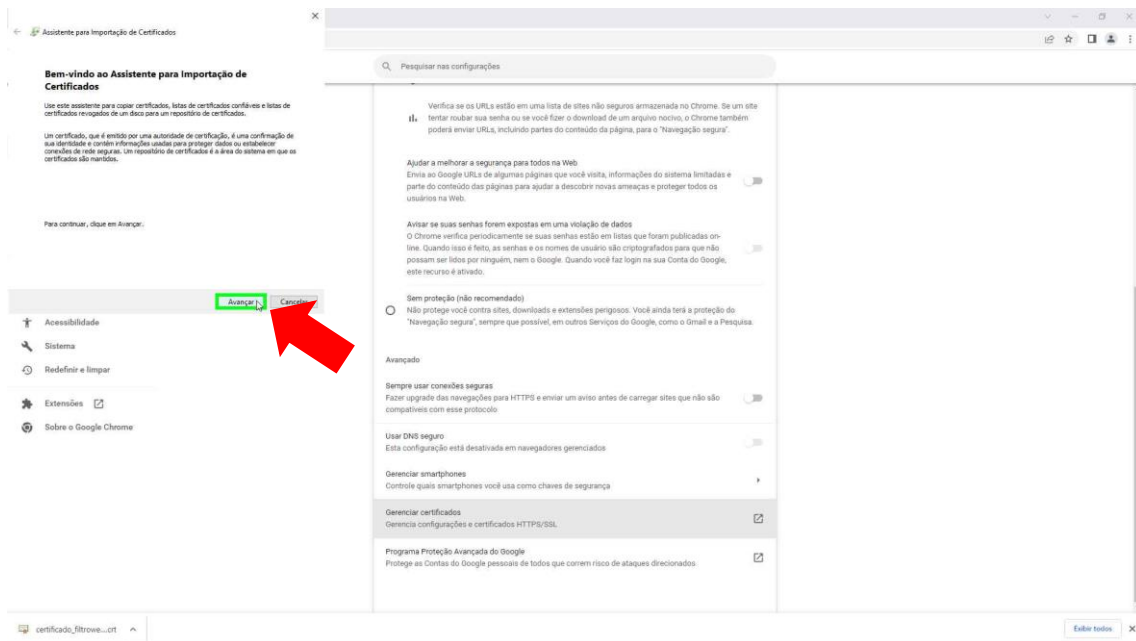

Passo 6: Utilize o botão de rolagem do mouse para baixo e clique em "Gerenciar certificados".

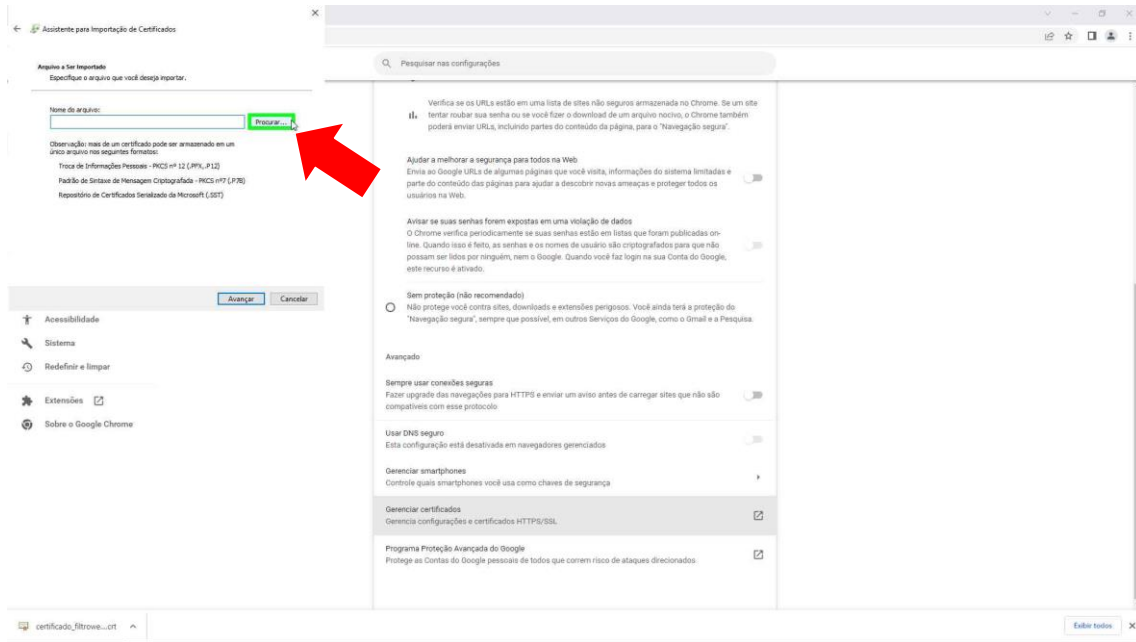

Passo 7: Clique em "Importar".

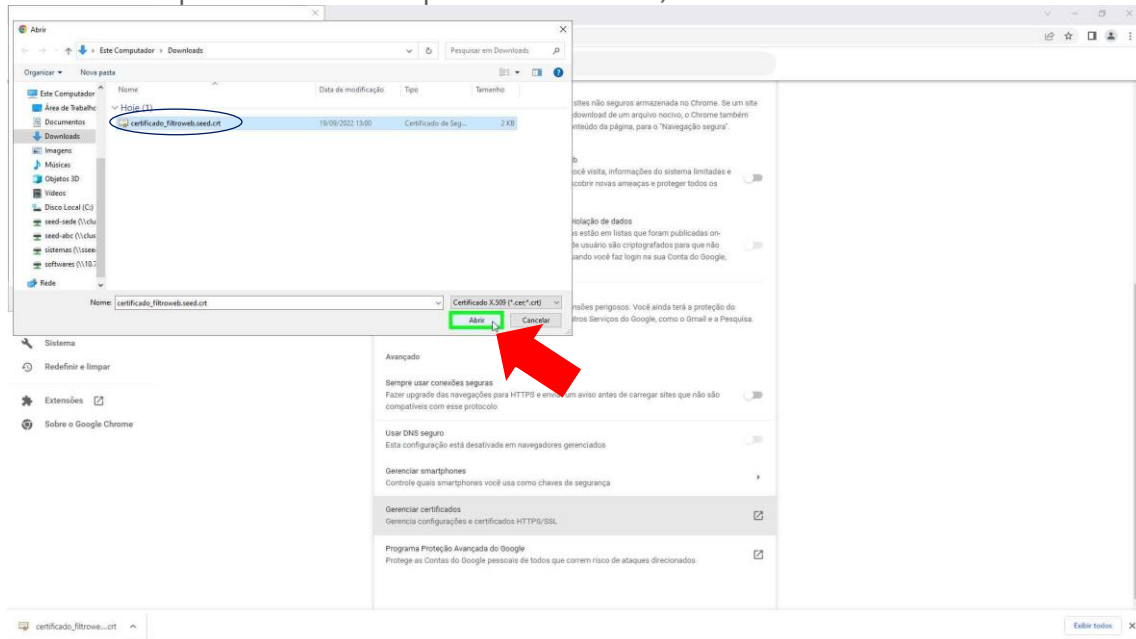

Passo 8: Clique em "Avançar".

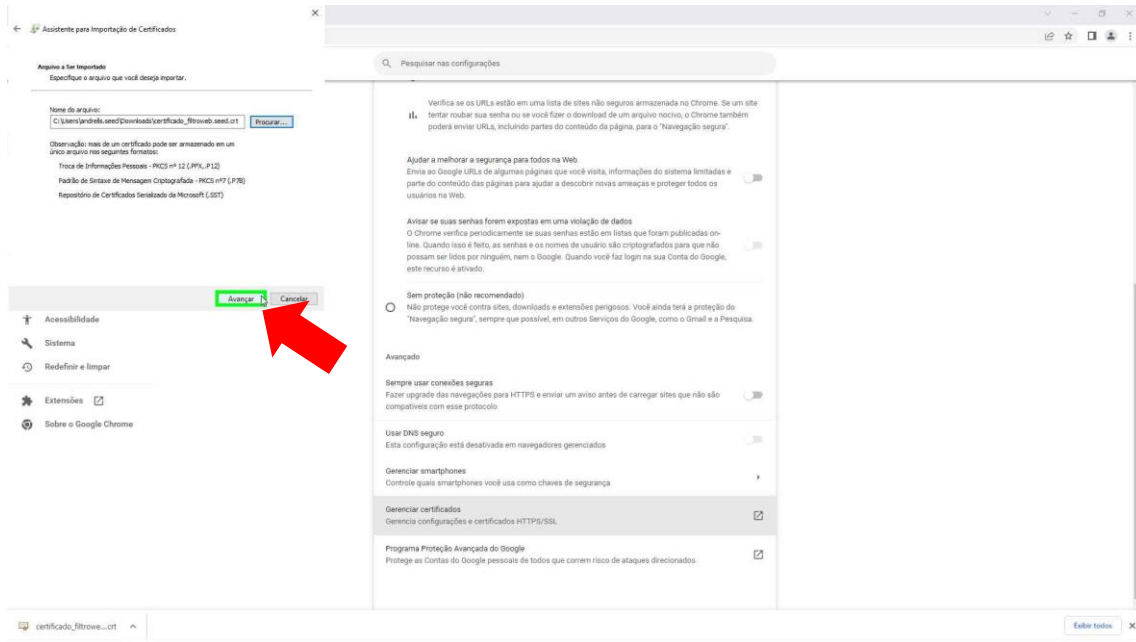

Passo 9: Clique em "Procurar".

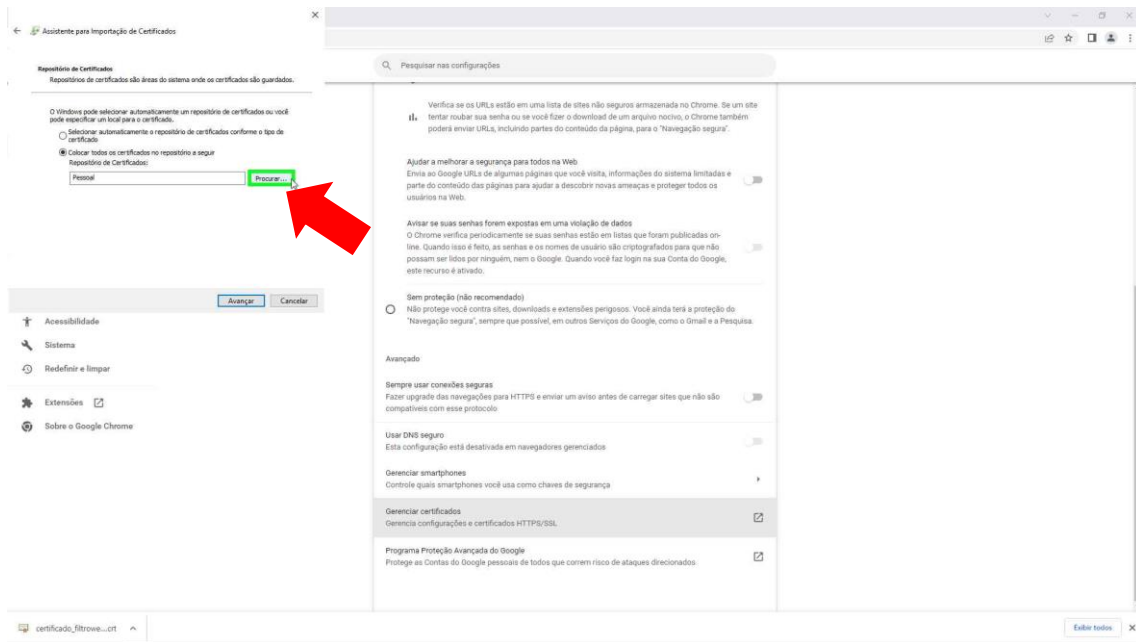

Passo 10: Selecione o arquivo **certificado_filtroweb.seed.crt** e depois clique em "Abrir". (Caso esta configuração não tenha sido alterada, por padrão os navegadores salvam os arquivos baixados na pasta **Downloads**.)

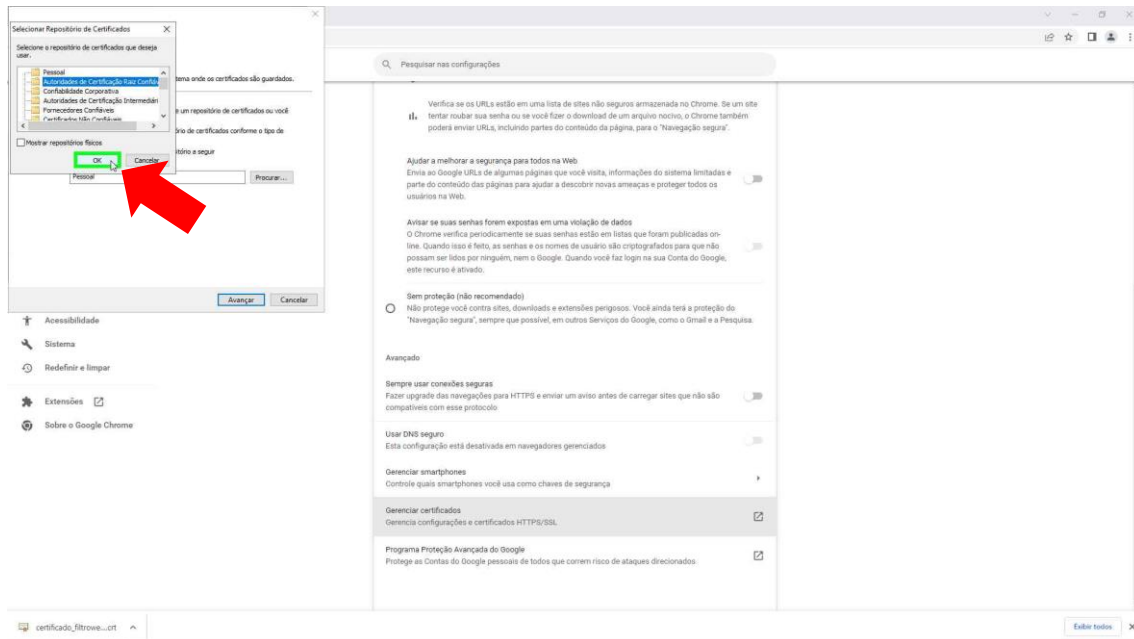

Passo 11: Clique em "Avançar".

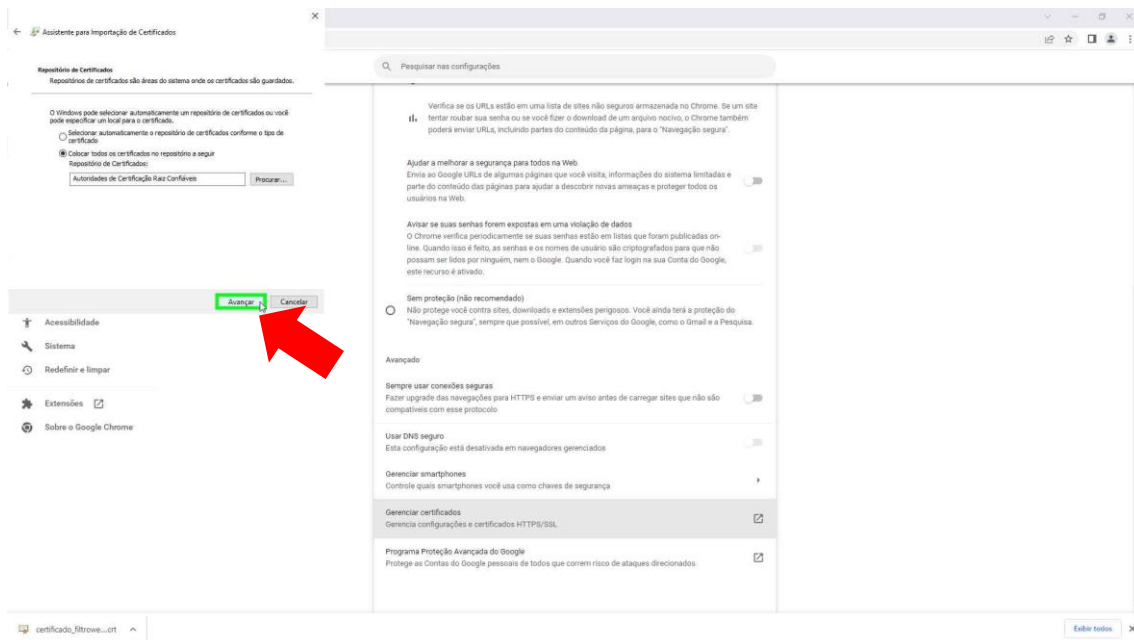

Passo 12: Clique em "Procurar".

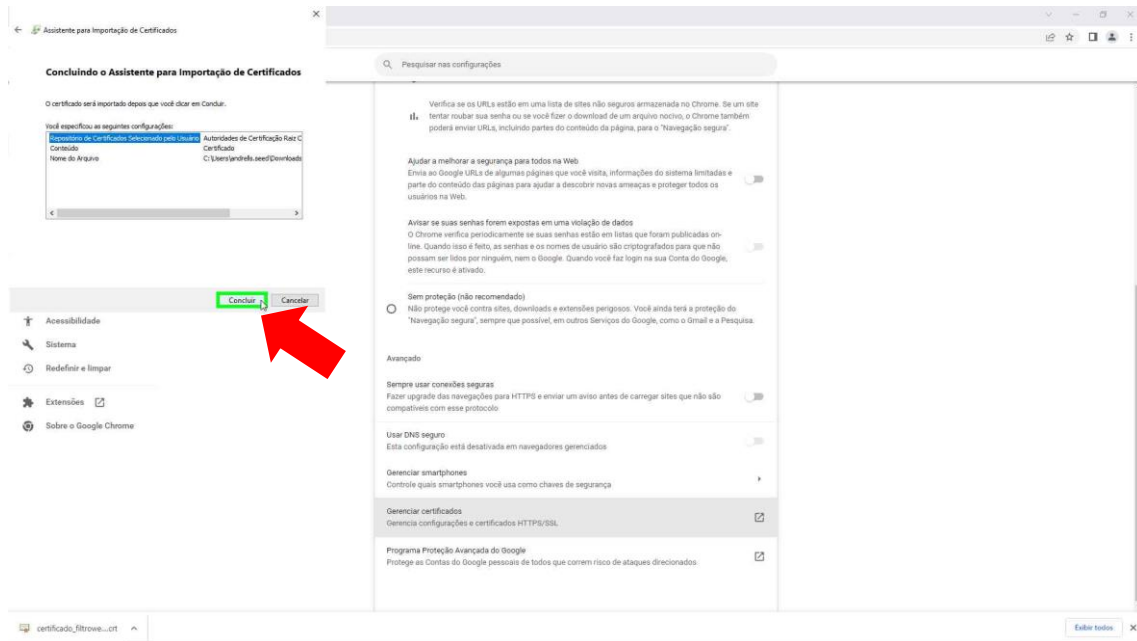

Passo 13: Clique em "**Autoridades de Certificação Raiz Confiáveis**" e depois clique em "**OK**".

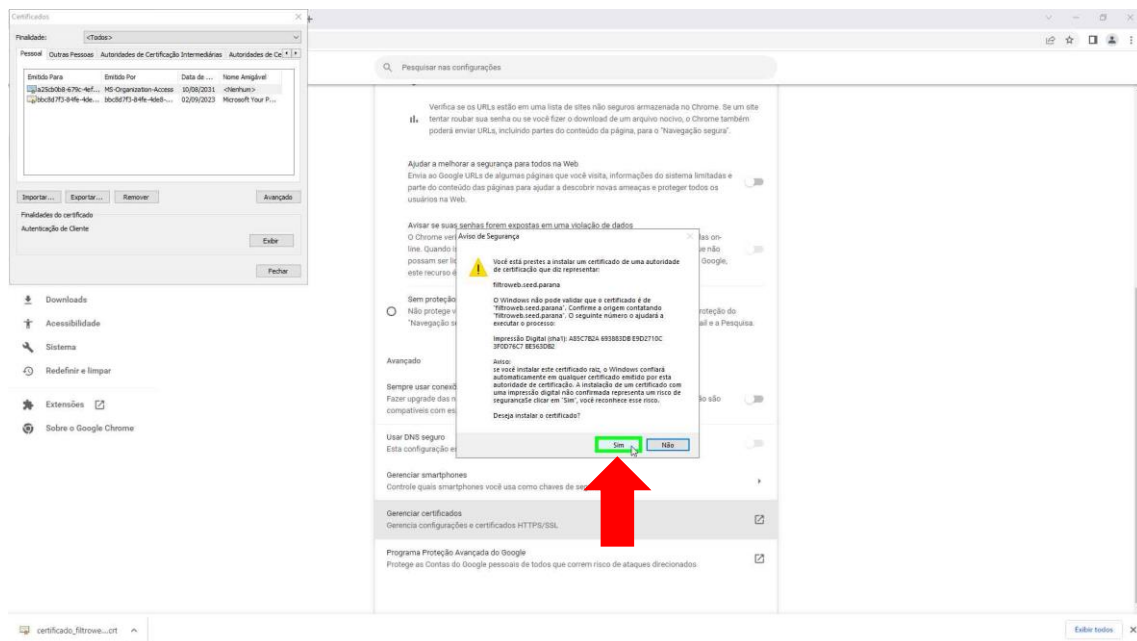

Passo 14: Clique em "**Avançar**".

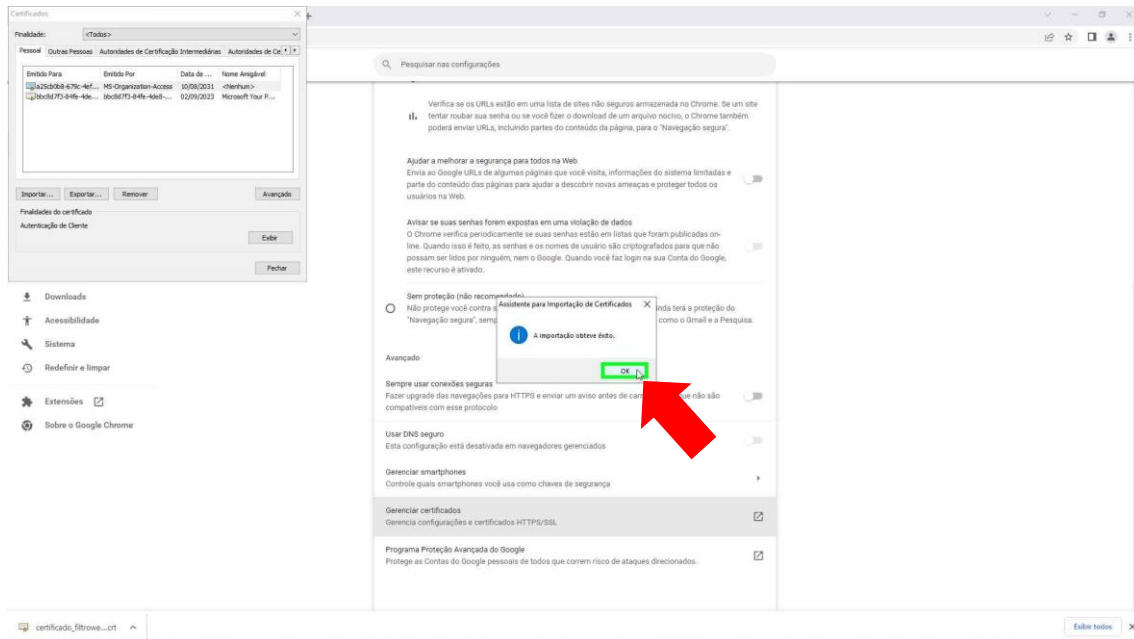

Passo 15: Clique em "Concluir".

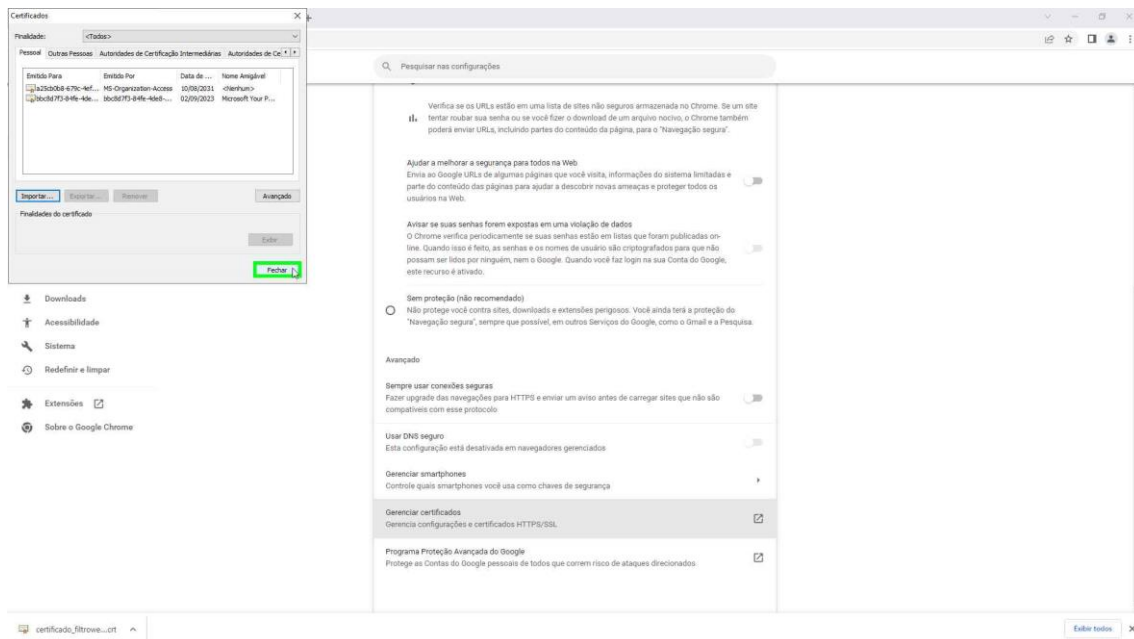

Passo 16: Clique em "Sim".

Passo 17: Aguarde até que seja exibida a janela informando: "**A importação obteve êxito.**" e clique em "**Sim**".

Passo 18: Clique em "**Fechar**".

Passo 19: Feche o navegador Google Chrome e abra novamente para garantir que o certificado funcione corretamente.
